Office of Warfighting Integration and Chief Information Officer

SAF/CIO A6

Mission Brief
“The mission of the United States Air Force is to *fly, fight* and *win*...in air, space and cyberspace.”
The Priorities Are Clear

- Continue to Strengthen the Air Force Nuclear Enterprise
- Partner with Joint and Coalition Team to Win Today's Fight
- Develop and Care for Airmen and Their Families
- Modernize Our Air and Space Inventories, Organizations & Training
- Recapture Acquisition Excellence
SECAF/CSAF Guidance

- Strong and centralized approach to network management
  - Lead role in enterprise-level network architectures
  - Overall network security policy
  - Develop AF network operational metrics
- Collaborate with Joint partners towards integrated capabilities-focused enterprise
- Produce needed capabilities at reasonable cost
  - Work with CMO to rapidly field business systems and management tools
  - Eliminate connectivity seams and disconnects
- Interface with AFSPC as we stand up 24th AF
SAF/CIO A6 Organization

Director of Staff – A6S
Director: Ms. Zamora

Chief of Warfighting Integration
Chief Information Officer
Lt Gen Lord

Deputy Chief of Warfighting Integration
Deputy Chief Information Officer
Mr. McMillin

Security Information Assurance Officer (SIAO)
Chief Technology Officer
Mr. Konieczny

Warfighter Systems Integration
A6W
Acting Director: Mr. Burns

Policy and Resources
A6P
Director: Mr. Smart

Cyberspace Operations
A6O
Director: Maj Gen Capasso

AFAMS
Vision
- Enduring Information Superiority for Joint Warfighter Supremacy

Mission
- To integrate AF, Air, Space, and Cyberspace information and systems into the joint fight. We do this by directing policy and advocating for resources to provide secure, reliable, and timely information to the Joint Warfighter.
Our Shared Goal

- Mission assurance by providing joint force commanders network enabled operational capability to...
  - See with clarity
  - Navigate with accuracy
  - Communicate with certainty
  - Strike with precision
  - Network with assurance

Improve Capabilities, Flexibility & Robustness of Forces Across the Domain
<table>

SAF/CIO A6 Roles

CIO
- Compliance Process for Clinger-Cohen Cert (Title 40)
- Develop/Maintain/Facilitate:
  - Enterprise Architecture
  - Technical Standards
- Perform IT Governance
- Assessment of Workforce and Systems
- Manage Enterprise-wide IT Policy
- Ensure IT/NSS systems comply w/USG, DoD and AF Standards
- * Business Systems Integration (TIPT) and Architecture
- * Process Improvement to Outreach Teams
  * Transitioned to CMO

Warfighting Integration
- Integrate information power across all Service Core Functions
- Horizontally Integrated Capability Portfolio Management
- Employ Governance to Synchronize AF and Joint Warfighter Networking Capabilities
- Establish Live-Virtual-Constructive Enterprise to Support Warfighter Capability Integration, Mission Training and Rehearsal

A6
- Develop and Implement C&I Policy
- Resource Advocacy (Air Staff) of C&I Programs
- Force Development of Cyberspace (C&I) Workforce
  ** Comm/Infrastructure Program Requirements and Command Lead
  ** Compliance Process (Execution)
  ** Detailed Comm Infrastructure Architecture
  ** Frequency Management
  ** Transitioned to AFSPC

Integrity - Service - Excellence
Role Analysis

- **CIO**
  - Enterprise Architecture
  - Technical Standards
  - Compliance Process for Systems (Policy); Clinger-Cohen Cert
  - Business Case Analysis
  - Information Resource Assessment (Workforce and Systems)

- **A6**
  - Comm/Infrastructure Program Requirements and Command Lead
  - C&I Programs Resource Advocacy (Air Staff Level)
    - Compliance Process (Execution)
    - Detailed comm infrastructure architecture
  - C&I Workforce Management
  - Frequency Management

- **AFSPC**
  - C&I Programs Resource Advocacy (Air Staff Level)
  - C&I Workforce Management
  - Comm/Infrastructure Program Requirements and Command Lead
    - Compliance Process (Execution)
    - Detailed comm infrastructure architecture
  - Frequency Management

- **CMO**
  - Business Systems Integration (TIPT) and Architecture
  - Warfighting Systems Integration (C2)
  - Tactical Data Links (incl Airborne Relays)
  - Process Improvement to Outreach Teams
    - Modeling and Simulation Support

- **Warfighting Integration**
  - Business Systems Integration (TIPT) and Architecture
    - Warfighting Systems Integration (C2)
    - Tactical Data Links (incl Airborne Relays)
    - Process Improvement to Outreach Teams
    - Modeling and Simulation Support
2011 Focus

- **Interoperability of Aerial Layer Network (ALN)**
  - Future Airborne Capability Environment (FACE) Architecture
  - Universal Networking Interface (UNI) / Airborne Networking GIG Interface (ANGI)
  - Multi-Functional Advanced Data Link (MADL) / Link-16 / Tactical Targeting Network Technology (TTNT) / Joint Tactical Radio System (JTRS)

- **Senior Leader Communications Systems**
  - Secure-Video Teleconference / Defense Info Switched Network (DISN) / Defense Red Switch Network (DRSN) / Go-Go Wi-Fi access
Integrated air, space, and cyberspace capabilities
Key Organizations

- **A6A – Air Traffic Services**
  - Responsible for DoD’s lead role in the Joint Planning and Development Office (JPDO), which oversees the vision called the Next Generation Air Traffic System (NextGen), i.e. what the National Airspace System (NAS) may look by the year 2025.

- **A6O – Cyberspace Operations**
  - Responsible for overseeing the execution of SAF/A6 deliverables/initiatives to include: Enterprise Network Management, enterprise application hosting, enterprise storage and computing; stop the duplication of capabilities in infrastructure. Shape doctrines, strategy, and policy for communications and information activities and serves as the functional advocate for 30,000 personnel. Contingency planning branch, postal operations, force development lead for 17D, 3D and civilian career fields.
Key Organizations

A6P – Policy and Resources
- Leads capital planning and investments for information technology and national security systems. It also provides policy and governance oversight for Air Force information technology and national security system development and fielding. Finally, it develops, applies, and leads the Air Force's Enterprise Architecture effort as a tool for strategic planning and investment.

A6W – Warfighter Systems Integration
- Leads initiatives in fulfilling SECAF and CSAF's vision of an integrated, capability-focused enterprise, with the common goal of serving the Warfighter's needs and eliminates the information seams dividing today’s capabilities. Leads strategy requirements integration.

A6S – Director of Staff
- Manages the administrative, contracting, personnel, and training needs of SAF/A6.

A6-CAG – CIO Action Group
- Develop & deliver clear, tailored messages to a broad range of audiences that reflect SAF/CIO A6 values, vision and guidance.
Key Organizations

A6G – Air National Guard (ANG) Advisor
- Responsible for advising the CIO A6 staff on wartime and peacetime operational capabilities of the National Guard. Informs the senior staff on ANG unique missions, equipment, manpower, statutes, and how they affect the execution of Air Force policies, programs, processes and procedures. Provide Total Force perspective in the development of Cyber capabilities. Promotes close communications and coordination between SAF/CIO A6.

A6H – Air Force Reserves (AFR) Advisor
- Principal advisor to SAF/CIO A6 on all AFR matters. Interprets and provides guidance on policies/programs effecting AFR resources. Indirectly supervises Individual Mobilization Augmentees (IMA) assigned to SAF/CIO A6 and associated Forward Operating Agencies (FOA). Ensures that Reserve Component-unique requirements are fully vetted and considered during AF strategic planning and policy development. Provide Total Force perspective in the development of Cyber capabilities.
In Summary...what we do

- CIO functions
- Warfighting Integration
- Lead initiatives to fulfill SECAF and CSAF's vision of an integrated, capability-focused joint information enterprise
- Provide policy and governance oversight for Air Force Information Technology
- Oversee IT capital planning and investments
- Shape doctrine and strategy for Comm and Info activities
- Functional Authority for 30,000+ Cyberspace (C&I) personnel
- Key partner in establishing Cyberspace domain
